Half Year Financial Report
Q1-Q2 2020
OPERATING PROFIT AND REVENUE INCREASED
Exel Composites overview

Global technology company and the world’s largest manufacturer of pultruded and pull-wound composite products.

- Customers in over 50 countries
- In business for 60 years
- 8 manufacturing units
- 103.8 (94.6) Revenue EUR million, 2019 (2018)
- 7.2 (5.0) Adjusted operating profit EUR million, 2019 (2018)
Q2 2020 highlights

Order intake
On one hand, order intake suffered from Covid-19 related uncertainty and cautiousness among customers.
On the other hand, we recorded a sizable order in Buildings and infrastructure to be delivered mainly in 2021.

Revenue
Increase of deliveries especially in Wind power to the Asia-Pacific region.
Volume decline in other customer industries globally, mainly attributable to the Covid-19 pandemic.

Adjusted operating profit
Operating profit increased despite the effects from the pandemic.
Improved profitability of the business unit in the USA was the main factor behind positive development of Group operating profit.

The Covid-19 pandemic impacted Exel Composites’ operations in Europe and the United States, while in China our factories operated normally.

Activity level increased towards the end of the quarter, based on which it seems that the business environment is developing favorably. However, there is still a risk that the pandemic continues or expands.
Order backlog was EUR 32.6 million at the end of Q2 2020
Revenue growth in Q1-Q2 2020 mainly due to improved sales mix

1) Volume impact calculated as difference in kilograms of delivered products times prior year average sales price/kg.
Revenue increased supported by deliveries in Wind power customer industry

Revenue by customer segment, EUR million

- North America: 18.5%
- Asia-Pacific: 19.7%
- Rest of the world: 2%
Operating profit increased to 2.8 in Q2 2020 despite the effects of the pandemic

- Adjusted operating profit was EUR 2.9 million in Q2 2020
- Improved profitability of the business unit in the USA was the main factor behind the positive development of Group operating profit.
Return on capital employed at 14.2% in Q1-Q2 2020
Impacts of the Covid-19-pandemic in Q2 2020

In Q2 2020, the pandemic impacted Exel Composites’ operations in Europe and the United States, while in China our factories operated normally.

Order intake suffered from Covid-19 related uncertainty and cautiousness among customers, but declined only slightly due to a sizable order recorded.

Liquidity and cash situation good.

Close and continuous interaction with customers, suppliers and business partners.

Actions continued to ensure safety and business continuity.

Close monitoring of the situation is a priority for us.
Guidance for 2020

Exel Composites withdrew its guidance on 6 May 2020 as a consequence of increased uncertainty and poor short-term predictability due to the Covid-19 pandemic. The impact of the pandemic on the company depends on the duration and severity of the crisis. The company will specify its guidance for 2020 later during the year when a more reliable estimate can be made.
